

**FREE
TREATMENT
FOR ALL**

ANNUAL REPORT
2022

ABOUT SIUT

The mission of SIUT is to provide the best healthcare without discrimination. Healthcare service delivery should be of the highest quality and provided free of cost, with respect and dignity.

ABOUT SIUT NORTH AMERICA

Established in 2000, SIUT North America (SIUTNA) is a charitable organization under Section 501(c)(3), dedicated to health-related humanitarian causes, with our major focus on helping Sindh Institute of Urology and Transplantation (SIUT) Pakistan secure funds for medicines, treatments, and equipment so all patients are treated free of charge and without discrimination. In 2020, SIUTNA donated \$1.5 million worth of equipment and provided special assistance to SIUT during the COVID-19 pandemic. Through grants, SIUTNA also helps organizations in the USA further goals of their community service programs.

Approximately \$15 million was awarded to SIUT Pakistan by SIUT North America in the last 4 years .

"A man's true wealth is the good he does in this world"

Prophet Muhammad (S.A.W)

Dear SIUTNA Friends and Family,

Happy 2023!

I want to personally thank each of you for your longstanding support of SIUT North America. Your compassion for patients at SIUT shown through your generosity has meant so much to us.

As a result, we were able to fund ***\$4.16 million*** to help SIUT purchase state-of-the-art medical equipment for its patients' treatments last year. The prime example is the Elekta Unity Linear Accelerator with integrated High Field MRI (MR/LINAC). This radiotherapy machine fully integrates two different technologies in a single platform: a state-of-the-art high-field MR imaging system and a next-generation linear accelerator, enabling real-time personalization and precision in radiation therapy and expanding treatment options for all cancers including hard-to-treat cancers.

Another key acquisition that has revolutionized the quality of surgical care at SIUT is the Versius Robotic Surgery System. In 2021, SIUTNA contributed \$3 million towards this cutting-edge minimal access surgery technology which is used to treat urological, hepatobiliary, colorectal and cancer diseases. We are extremely proud to announce that SIUT successfully operated over 1200 robotic surgeries in 2022 - proving yet again SIUT's commitment to exceptional care for all its patients, free of cost.

These accomplishments are only possible with support from friends like you. Looking ahead, our vision is to reach even higher fundraising targets to help meet the escalating need for health care services. We are grateful for your support and request that you help us spread the word about our mission to others who might want to help.

Sincerely,

S. Meraj Nazar

President, SIUT North America Inc.

SIUT NORTH AMERICA's NEW EXECUTIVE DIRECTOR SARAH WAHEED SHER

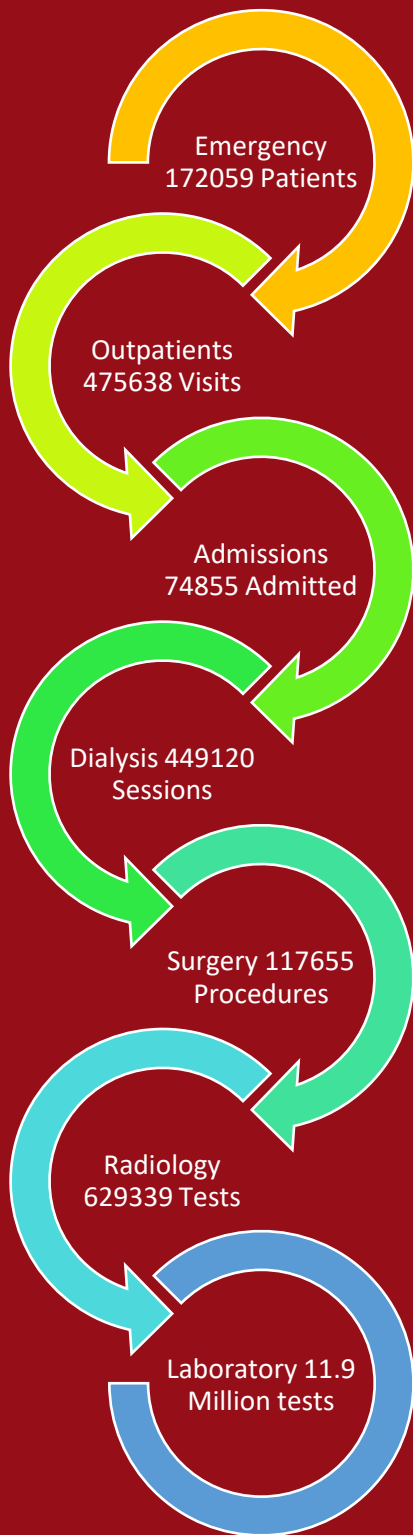

Ms. Sarah Waheed Sher is the Executive Director of SIUT North America. She brings extensive experience working in the not-for-profit sector and with International Organizations. Sarah is a Rhodes Scholar and holds a BA in Philosophy, Politics, and Economics from Oxford University and an MSc in Development Studies from the London School of Economics and Political Science. Sarah is passionate about social justice and health equity and has helped design and publish the United Nations access to opportunities framework for ICT's. She lives in Houston with her husband and two children.

SIUT's IMPACT

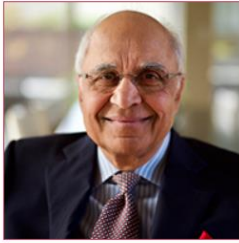

Over 3.3 Million
Patients were treated at SIUT in
2022.

MISSION

1. To ensure quality health care as a fundamental right of every individual.
2. Provide Free State of the art medical cover without discrimination.
3. Treat all patients with dignity and utmost respect.
4. Provide free medical care and not to turn away any patient due to financial constraints.
5. Create public awareness in the society at large for prevention of diseases.
6. Carry out research and transfer of technology for better medical care.
7. Enhance the capacity building of medical professionals.
8. Transfer of technology and expertise in various medical disciplines.
